 Naveen-R-77

SUMMARY

A hardworking and adaptable individual eager to work in a collaborative environment, quickly adapting to challenges with a clear mindset. Seeking an opportunity to gain hands-on experience, expand my knowledge, and contribute effectively to the growth of the organization.

EDUCATION

B.Tech AIML
KONGU ENGINEERING COLLEGE
2023 – 2027 | Erode, India
CGPA - 6.28*

HIGHER SECONDARY EDUCATION (+2)
SRI SWAMY MATRICH SEC SCHOOL
2022 – 2023 | Salem, India
Percentage - 68%

SKILLS

Technical Skills

- Web Development: HTML, CSS, JS, React JS, Tailwind
- Backend: Node, Express
- Mobile App Development: Flutter, Dart
- ML/DL Frameworks: Numpy, Pandas, Tensor Flow, Keras
- Version Control: Git, GitHub

Programming Languages

- Python
- Java
- C

Tech Tools

- VS Code
- Jupyter Notebook

Soft Skills

- Time Management
- Adaptability
- Collaboration & Teamwork
- Patience

CERTIFICATES

- Oracle Apex Cloud Developer Professional
- API Security on Apigee
- NPTEL - Google Cloud Computing Foundation

AREA OF INTEREST

- Web Development
- Machine Learning

PROJECTS

Spam Detection System

Machine Learning Project

- Developed an ML model to classify spam vs non-spam comments using Naive Bayes, SVC, Random Forest, and Linear Regression.
- Performed text preprocessing, feature extraction, and model evaluation to improve accuracy.

Tech Stack: Python, Scikit-learn, NLP, Pandas, NumP

Plant Disease Prediction

Deep Learning Project

- Developed a CNN-based deep learning model to detect and classify plant leaf diseases from images.
- Improved early disease identification accuracy through image preprocessing and model training.

Tech Stack: Python, TensorFlow, Keras, OpenCV, CNN

Resort Booking System

Java Application

- Developed a Java-based resort booking system for managing reservations, availability, and customer details.
- Applied object-oriented programming (OOP) concepts to build clean and modular code.

Tech Stack: Java

Inventory Management System

Web Application

- Built an inventory management web app with React frontend and Firebase integration.
- Enabled product tracking, categorization, and basic inventory reports.

Tech Stack: React, JavaScript, HTML, CSS, Firebase

PlantCare AI – Plant Disease Detection & Crop Advisory

Full Stack Web Application

- Built an AI-powered platform for plant disease detection, crop advisory, and multilingual chatbot using Google Gemini AI.
- Implemented secure authentication, weather-based recommendations, analytics dashboard, and a mobile-friendly PWA.

Tech Stack: React, Node.js, Express.js, MongoDB, Google Gemini AI, Weather API, EmailJ

Health Tracker – Mobile Application

Flutter Application

- Developed a Flutter-based mobile app to track daily health activities and user data.
- Built a clean, responsive UI with focus on performance and usability.

Tech Stack: Flutter, Dart

Smart Supermarket System

Full-Stack PWA

- Built a full-stack ERP & POS system with real-time inventory, barcode billing, low-stock alerts, and automated reorder emails to suppliers.
- Integrated Firebase real-time sync and a Google Gemini AI assistant for smart retail insights.

Tech Stack: Next.js 16, React 19, TypeScript, Tailwind CSS, Firebase, Google Gemini AI
